Volume 26, Issue 4

December 2025

Special Issue: Machine Learning and Inverse Problems

Issue Editors:

Didier Auroux,

Vassilios Kovanis Kovanis,

Herb Kunze,

Davide La Torre

23 articles in this issue

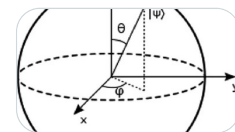

Announcement: Howard Rosenbrock Prize 2024

Editorial | 25 October 2025 | Pages: 2307 - 2309

Inverse problems and machine learning

Editorial | 24 October 2025 | Pages: 2311 – 2319

Optimizing quantum machine learning for proactive cybersecurity

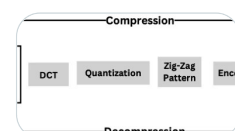

Research Article | Open access | 14 December 2024 | Pages: 2321 – 2353

Part of 1 collection:

Machine Learning and Inverse Problems

Recovering MRI magnetic field strength properties using machine learning based on image compression quality scores

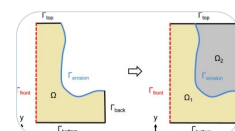

Research Article | Open access | 12 October 2024 | Pages: 2355 – 2371

Part of 1 collection:

Machine Learning and Inverse Problems

Inversion of impact-echo data using a shape optimization approach

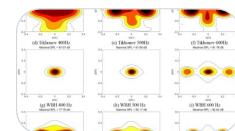

Research Article | Open access | 15 February 2025 | Pages: 2373 – 2400

Part of 1 collection:

Machine Learning and Inverse Problems

Sound field reconstruction using improved ℓ_1 -norm and the Cauchy penalty method

Research Article | 12 July 2024 | Pages: 2401 – 2416

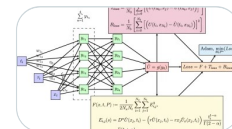

Part of 1 collection:

Machine Learning and Inverse Problems

Correction: Sound field reconstruction using improved ℓ_1 -norm and the Cauchy penalty method

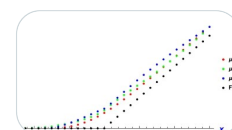

A Physics informed neural network approach for solving time fractional Black–Scholes partial differential equations

Research Article | Open access | 02 August 2024 | Pages: 2419 – 2448

 Part of 1 collection:
Machine Learning and Inverse Problems

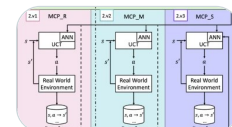

Generalized measure Black–Scholes equation: towards option self-similar pricing

Research Article | 05 April 2024 | Pages: 2449 – 2476

 Part of 1 collection:
Machine Learning and Inverse Problems

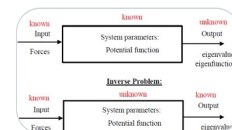

Online model adaptation in Monte Carlo tree search planning

Research Article | Open access | 18 June 2024 | Pages: 2477 – 2498

 Part of 1 collection:
Machine Learning and Inverse Problems

Direct and inverse problems of fractional Sturm–Liouville equation

Research Article | 25 March 2024 | Pages: 2499 – 2515

 Part of 1 collection:
Machine Learning and Inverse Problems

Nonlocal Weickert diffusion: unveiling image details through optimal control and ADMM

Research Article | 21 September 2024 | Pages: 2517 – 2551

 Part of 1 collection:

Concurrent print orientation and topology optimization for fiber reinforced additive manufacturing considering mass minimization and compliance minimization problems statements

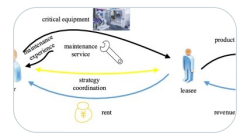

Research Article | 13 May 2025 | Pages: 2553 – 2587

A systematic data-based method for non-probabilistic convex modelling under dependent uncertainty variables

Research Article | 20 May 2025 | Pages: 2589 – 2628

Maintenance optimization for leased equipment considering learning effects

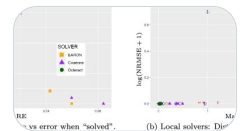

Research Article | 26 May 2025 | Pages: 2629 – 2661

Part of 1 collection:

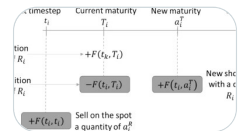

Smart Optimization Methods for Engineering and Management Problems

Parameter estimation in ODEs: assessing the potential of local and global solvers

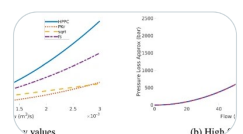

Research Article | Open access | 05 June 2025 | Pages: 2663 – 2701

Optimal dynamic commodity liquidation by joint spot and forward contracts

Research Article | 05 June 2025 | Pages: 2703 – 2729

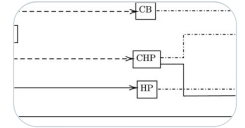

Improved mixing and pressure loss formulations for gas network optimization

Research Article | 05 June 2025 | Pages: 2731 – 2758

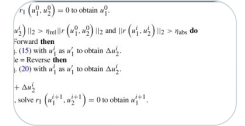

Global minimization of multimodal optimization with one-parameter filled function

Considering homeowner acceptance of retrofit measures within energy supply network optimization

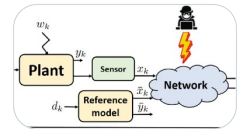

Research Article | Open access | 09 June 2025 | Pages: 2779 – 2807

Nonlinear and linear Schur complement solvers for optimization of saddle-point systems

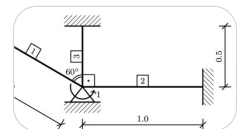

Research Article | 13 June 2025 | Pages: 2809 – 2840

Tracking control for networked Markov-jump systems subject to cyber attacks with application to a single-link robot arm

Research Article | 21 June 2025 | Pages: 2841 – 2865

Term-sparse polynomial optimization for the design of frame structures

Research Article | 24 June 2025 | Pages: 2867 – 2910
